MANAGEMENT DISCUSSION & ANALYSIS

Financial Review

The global economy has experienced a gradual recovery during the first half of 2013. However, Europe has continued to experience economic setbacks, while improvements in consumer confidence and employment in the US have been more modest than market expectations. The weakness of both regions consequently affected the overall performance of the toy industry. Nevertheless, Japan, the largest market for Dream International Limited (the “Company”) and its subsidiaries (collectively the “Group”), has continued to provide a relatively stable business environment – being the major contributor to the Group’s financial results during the review period.

For the six months ended 30 June 2013, the Group’s turnover dipped to HK$554.0 million (2012: HK$589.2 million) resulting from the weak macroeconomic environment. However, gross profit improved by 14.1% to HK$160.0 million (2012: HK$140.2 million) with gross margin up to 28.9% (2012: 23.8%). The increases were primarily driven by the Group’s strategic move to high-end products, as well as the reversal of certain provisions relating to PRC factories that were one-off in nature. Excluding the changes in provisions, the gross profit margin would still have risen to 24.6%. Accordingly, operating profit grew to HK$61.4 million (2012 (restated): HK$53.7 million), while profit attributable to equity shareholders of the Company increased to HK$50.2 million (2012 (restated): HK$43.5 million), translating into a net margin of 9.1% (2012 (restated): 7.4%).

The Group maintained a healthy financial position with cash and bank deposits of HK$379.6 million (31 December 2012: HK$438.3 million) as at 30 June 2013.

Business Review

Product Analysis

Plush Stuffed Toys

As at the reporting period, the plush stuffed toys business recorded turnover of HK$508.0 million (2012: HK$551.3 million), accounting for 91.7% of the Group's total turnover. Original Equipment Manufacturing ("OEM") remained the core business of the Group, generating turnover of HK$501.7 million (2012: HK$478.0 million), or 98.8% of plush stuffed toys' sales. Over the past six months, the Group also continued to strengthen its business ties with existing customers, including globally renowned cartoon character owners and licensors. Leveraging positive market response following the launch of new products featuring iconic characters from Japan and Korea in the previous year, the Group participated in New York Toy Fair 2013 to further promote these characters and completed shipments to two distributors during the review period. These characters will also be launched at an upscale retail toy store in New York in the second half year. In view of wider acceptance of these characters around the world, the Group will strive to grasp more opportunities in the future.

The Original Design Manufacturing ("ODM") business recorded turnover of HK$6.3 million (2012: HK$73.3 million), contributing 1.2% of plush stuffed toys' sales. The decline was mainly attributable to the postponement of certain orders, which will be booked in the second half year. Through the establishment of the "Dream, made to love, made to hug" brand targeting the premium market, the Group aims to enhance and strengthen its brand awareness among target customers, as well as further improve profitability and widen income streams. Following the brand's successful launch at the New York toy fair last year, the Group has been working with customers on new product introductions and expects to finalise a schedule by the end of this year.

Ride-on Toys

During the period under review, sales generated from the ride-on toys segment amounted to HK$22.0 million (2012: HK$32.8 million), and accounted for 4.0% of the Group's total turnover. The decline in sales was due to a delay in the placement of orders by a Japanese customer. The Group continued to strengthen its position in the high-end market, especially in China, to enhance profitability and distance itself from keen competition among industry players in the lower priced product categories. The Group's high-margin tricycle product line remained the best selling in China, and it plans to launch an upgraded model in the fourth quarter to further tap local demand. The Group is also going to launch this new product in Japan, and the first shipment will be made within the following months. During the period under review, the Group has further enriched its product portfolio to include baby plastic chairs, with shipments made to both the Japanese and Chinese markets.

Plastic Figures

Following the successful launch of plastic figures last year, this segment has continued to thrive, with turnover surging by 3.7 folds year-on-year to HK$24.0 million (2012: HK$5.1 million), representing 4.3% of the Group's total turnover. During the review period, the Group continued to capitalise on its solid relationship with existing customers to secure stable orders for its plastic figures. To meet the flourishing demand, the Group plans to boost production capacity by building an additional factory in Hanoi, Vietnam in the near future.

Market Analysis

For the six months ended 30 June 2013, Japan remained the largest market for the Group, accounting for 53.6% of total turnover. North America accounted for 27.0% of total turnover, followed by Europe at 7.9%. China's contribution grew to 2.6% as at the reporting period.

Operational Analysis

As at 30 June 2013, the Group operated 10 plants in total, five of which were in China and five in Vietnam – running at an average utilisation rate of 79.7%. To support business development, the Group purchased a manufacturing plant in the Mekong Delta, Vietnam in December 2012, which has been running smoothly and enhancing the Group's production capacity for plush stuffed toys. To expedite development of the plastic figure segment, the Group is expanding its existing facilities, and is constructing a clean room in the factory as well. The Group also plans to build a second plastic figures plant in Hanoi, which will commence production by the end of 2013.

Prospects

Looking ahead, perceived challenges associated with the European economy will continue to temper consumption sentiment. In the US, improving economic indicators have translated into opportunities for the recovery of the toy market; however, such a recovery has been at a slower pace than expected. On the operations front, escalating labour and material costs combined with rising pressure from appreciation of the Renminbi and depreciation of Japanese Yen have created a tough environment that will accelerate consolidation of the toy industry. In view of the obstacles ahead, the Group will be committed to maintaining a solid foundation for its businesses, so that when market conditions improve, it will be well prepared to capture fresh opportunities.

Over the years, the Group has steadily built a successful track record in the plush toy industry. By nurturing close ties with existing customers, the Group will actively explore more opportunities to cooperate, spanning across different geographical regions and product categories, to boost sales growth. The Group is also strategically shifting its focus to the high-end market, especially in China, to enhance profitability and operational efficiency. With respect to Japan, its largest market, the Group expects to continue realising stable revenue growth in the future. Not satisfied with the status quo however, the Group has observed rising business opportunities in emerging markets, and has successfully extended its reach to Brazil and Russia. Leveraging its leading position and successful experience, the Group expects to grasp more opportunities, diversify its income streams, strengthen its core businesses and provide sufficient support to new business developments.

Having already established a strong foundation for the plush stuffed toy business, the Group will direct its resources towards further growth of the plastic figures business as a future revenue driver. Over the past two years, the Group has been charting a course for the plastic figures business, which commenced production last year. Thus far, the business has progressed as expected and the Group has already secured internationally renowned customers for the segment. The Group expects the plastic figures business will continue to grow, receive more orders and achieve breakeven point by the end of the year.

Number and Remuneration of Employees

At 30 June 2013, the Group had 9,100 (31 December 2012: 8,578) employees in Hong Kong, Mainland China, the Republic of Korea, the US, Japan and Vietnam. The Group values its human resources and recognises the importance of attracting and retaining quality staff for its continuing success. Staff bonuses and share options are awarded based on individual performance.

Liquidity and Financial Resources and Gearing

The Group continued to maintain a reasonable liquidity position. As at 30 June 2013, the Group had net current assets of HK$573.4 million (31 December 2012: HK$604.2 million). The Group's total cash and cash equivalents as at 30 June 2013 amounted to HK$241.7 million (31 December 2012: HK$281.6 million). The total borrowings of the Group as at 30 June 2013 amounted to HK$22.0 million (31 December 2012: HK$22.6 million).

The Group's gearing ratio, calculated on the basis of total bank borrowings over total equity, was 2.7% at 30 June 2013 (31 December 2012 (restated): 2.7%).

Pledge on Group Assets

Bank borrowings are secured on the Group's buildings, plant and machinery and land use rights with a net book value as at 30 June 2013 of HK$24.1 million (31 December 2012: HK$26.5 million).

SHARE OPTION SCHEME

The Company has a share option scheme which was adopted on 22 January 2002 whereby the directors of the Company are authorised, at their discretion, to invite employees of the Group, including directors of any company in the Group, to take up options to subscribe for shares of the Company. The exercise price of the options is the highest of (i) the nominal value of the shares, (ii) the closing price of the shares on the SEHK on the date of grant and (iii) the average closing price of the shares on the SEHK for the five business days immediately preceding the date of grant. The options may be exercised progressively after one to three years from the date of grant and are exercisable for a period to be notified by the directors to each option holder upon the grant of the option. Such period will not exceed ten years from the date on which the option is granted.

The maximum number of shares which may be issued upon the exercise of all outstanding options and yet to be exercised under the share option scheme shall not exceed 30% of the issued share capital of the Company from time to time. Subject to the above overall limit, the directors may grant options under the share option scheme, generally and without further authority, in respect of such number of shares which may be issued upon exercise of all options to be granted under the share option scheme not exceeding 10% of the issued share capital of the Company as at 7 February 2002, being the date on which the Company's shares were listed on the SEHK. For the purpose of calculating the above, options lapsed in accordance with the share option scheme shall not be counted.

The total number of securities available for issue under the share option scheme as at 30 June 2013 was 42,835,000 shares (including options for 4,700,000 shares that have been granted but not yet lapsed or exercised) which represented 6.37% of the issued share capital of the Company at 30 June 2013. In respect of the maximum entitlement of each participant under the scheme, the number of securities issued and to be issued upon exercise of the options granted to each participant in any 12-month period is limited to 1% of the Company's ordinary shares in issue.

SHARE OPTION SCHEME *(Continued)*

Notes:

1. Share options granted on 23 December 2011 shall be wholly exercisable from the 2nd anniversary of the date of grant.

2. Pursuant to the conditions of the share option scheme, any unexercised number of options granted to any employee will lapse three months after the employee ceases the employment relationship with the Company. These 100,000 lapsed share options related to an employee who left before 31 March 2013.

3. The share options granted to the directors are registered under the names of the directors who are also the beneficial owners.

4. No share option has been granted, exercised or cancelled during the period.

Save as disclosed above, at no time during the six months ended 30 June 2013 was the Company, or any of its subsidiaries or fellow subsidiaries a party to any arrangement to enable the directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company and its associated corporations and none of the directors or chief executive of the Company (including their spouses and children under the age of 18) held any interests in or was granted any right to subscribe for the securities of the Company and its associated corporations (within the meaning of Part XV of the SFO), or had exercised any such rights.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the six-month period ended 30 June 2013, neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed securities.

CORPORATE GOVERNANCE

During the six-month period ended 30 June 2013, the Company has complied with Corporate Governance Code as set out in Appendix 14 of the Rules Governing the Listing of Securities (the "Listing Rules") on SEHK, save for the deviation from the code provision A.2.1.

Under the code provision A.2.1, the roles of chairman and chief executive officer ("CEO") should be separated and should not held by the same individual. Mr. Kyoo Yoon Choi has been appointed as the CEO on 4 October 2012 and has performed both the roles as the chairman and CEO of the Company. The Board is of the opinion that it is appropriate and in the best interests of the Company at the present stage for Mr. Kyoo Yoon Choi to hold both the positions as it helps to maintain the continuity of the policies and stability of the operations of the Company. The Board including three independent non-executive directors has a fairly independence element in the composition and will play an active role to ensure a balance of power and authority.

MODEL CODE FOR SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding directors' securities transactions on terms no less exacting than the required standard set out in Appendix 10 of the Listing Rules regarding the Model Code. Based on the specific enquires of the Company's directors, the directors have complied with the required standard set out in the Model Code.

REVIEW REPORT TO THE BOARD OF DIRECTORS OF DREAM INTERNATIONAL LIMITED

(Incorporated in Hong Kong with limited liability)

INTRODUCTION

We have reviewed the interim financial report set out on pages 18 to 44, which comprises the consolidated balance sheet of Dream International Limited (the "Company") as of 30 June 2013 and the related consolidated income statement, statement of comprehensive income, statement of changes in equity and condensed consolidated cash flow statement for the six month period then ended and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants. The directors are responsible for the preparation and presentation of the interim financial report in accordance with Hong Kong Accounting Standard 34.

Our responsibility is to form a conclusion, based on our review, on the interim financial report and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

REVIEW REPORT TO THE BOARD OF DIRECTORS OF DREAM INTERNATIONAL LIMITED *(Continued)*

(Incorporated in Hong Kong with limited liability)

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the Hong Kong Institute of Certified Public Accountants. A review of the interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2013 is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34, *Interim financial reporting*.

NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT

(Expressed in Hong Kong dollars unless otherwise indicated)

1 Basis of preparation

This interim financial report has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, including compliance with Hong Kong Accounting Standard ("HKAS") 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). It was authorised for issue on 26 August 2013.

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2012 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2013 annual financial statements. Details of these changes in accounting policies are set out in note 2.

The preparation of an interim financial report in conformity with HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

This interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of Dream International Limited (the "Company") and its subsidiaries (the "Group") since the 2012 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs").

The interim financial report is unaudited, but has been reviewed by KPMG in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the HKICPA. KPMG's independent review report to the board of directors is included on pages 16 and 17.

1 **Basis of preparation *(Continued)***

The financial information relating to the financial year ended 31 December 2012 that is included in the interim financial report as being previously reported information does not constitute the Company's statutory financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 December 2012 are available from the Company's registered office. The auditors have expressed an unqualified opinion on those financial statements in their report dated 26 March 2013.

2 **Changes in accounting policies**

The HKICPA has issued a number of new HKFRSs and amendments to HKFRSs that are first effective for the current accounting period of the Group and the Company. Of these, the following developments are relevant to the Group's financial statements:

– Amendments to HKAS 1, *Presentation of financial statements – Presentation of items of other comprehensive income*

– HKFRS 10, *Consolidated financial statements*

– HKFRS 12, *Disclosure of interests in other entities*

– HKFRS 13, *Fair value measurement*

– Revised HKAS 19, *Employee benefits*

– *Annual Improvements to HKFRSs 2009-2011 Cycle*

– Amendments to HKFRS 7, *Financial instruments: Disclosures – Disclosures – Offsetting financial assets and financial liabilities*

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

2 Changes in accounting policies *(Continued)*

Amendments to HKAS 1, Presentation of financial statements – Presentation of items of other comprehensive income

The amendments to HKAS 1 require entities to present the items of other comprehensive income that would be reclassified to profit or loss in the future if certain conditions are met separately from those that would never be reclassified to profit or loss. The Group's presentation of other comprehensive income in these financial statements has been modified accordingly.

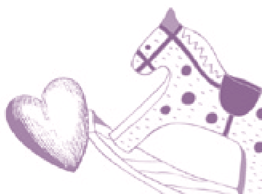
HKFRS 10, Consolidated financial statements

HKFRS 10 replaces the requirements in HKAS 27, *Consolidated and separate financial statements*, relating to the preparation of consolidated financial statements and Hong Kong (SIC) Interpretation 12, *Consolidation – Special purpose entities*. It introduces a single control model to determine whether an investee should be consolidated, by focusing on whether the entity has power over the investee, exposure or rights to variable returns from its involvement with the investee and the ability to use its power to affect the amount of those returns.

As a result of the adoption of HKFRS 10, the Group has changed its accounting policy with respect to determining whether it has control over an investee. The adoption does not change any of the control conclusions reached by the Group in respect of its involvement with other entities as at 1 January 2013.

HKFRS 12, Disclosure of interests in other entities

HKFRS 12 brings together into a single standard all the disclosure requirements relevant to an entity's interests in subsidiaries, joint arrangements, associates and unconsolidated structured entities. The disclosures required by HKFRS 12 are generally more extensive than those previously required by the respective standards. Since those disclosure requirements only apply to a full set of financial statements, the Group has not made additional disclosures in this interim financial report as a result of adopting HKFRS 12.



2 Changes in accounting policies *(Continued)*

HKFRS 13, Fair value measurement

HKFRS 13 replaces existing guidance in individual HKFRSs with a single source of fair value measurement guidance. HKFRS 13 also contains extensive disclosure requirements about fair value measurements for both financial instruments and non-financial instruments. Some of the disclosures are specifically required for financial instruments in the interim financial reports. The Group has provided those disclosures in note 16. The adoption of HKFRS 13 does not have any material impact on the fair value measurements of the Group's assets and liabilities.

Revised HKAS 19, Employee benefits

Revised HKAS 19 introduces a number of amendments to the accounting for defined benefit plans. Among them, revised HKAS 19 eliminates the "corridor method" under which the recognition of actuarial gains and losses relating to defined benefit schemes could be deferred and recognised in profit or loss over the expected average remaining service lives of employees. Under the revised standard, all actuarial gains and losses are required to be recognised immediately in other comprehensive income. Revised HKAS 19 also changed the basis for determining income from plan assets from expected return to interest income calculated at the liability discount rate, and requires immediate recognition of past service cost, whether vested or not.

2 Changes in accounting policies *(Continued)*

Revised HKAS 19, Employee benefits (Continued)

As a result of the adoption of revised HKAS 19, the Group has changed its accounting policy with respect to defined benefit plans, for which the corridor method was previously applied. This change in accounting policy has been applied retrospectively by restating the balances at 31 December 2012, and the result for the six months ended 30 June 2012 as follows:

	As previously reported	**Effect of adopting revised HKAS 19**	**As restated**
	$'000	$'000	$'000
Consolidated income statement for the six months ended 30 June 2012:			
Defined benefit retirement plan expense	1,120	(259)	861

Consolidated statement of comprehensive income for the six months ended 30 June 2012:			
Total comprehensive income for the period	39,744	87	39,831
Consolidated balance sheet at 31 December 2012:			
Net defined benefit retirement asset	3,114	(3,114)	–
Total non-current assets	240,245	(3,114)	237,131
Net defined benefit retirement obligation	–	750	750
Total non-current liabilities	2,206	750	2,956
Net assets/Total equity	842,275	(3,864)	838,411
Reserves	785,322	(3,864)	781,458

This change in accounting policy does not have any material impact on current or deferred taxation.

2 **Changes in accounting policies *(Continued)***

Annual Improvements to HKFRSs 2009-2011 Cycle

This cycle of annual improvements contains amendments to five standards with consequential amendments to other standards and interpretations. Among them, HKAS 34 has been amended to clarify that total assets for a particular reportable segment are required to be disclosed only if the amounts are regularly provided to the chief operating decision maker (the "CODM") and only if there has been a material change in the total assets for that segment from the amount disclosed in the last annual financial statements. The amendment also requires the disclosure of segment liabilities if the amounts are regularly provided to the CODM and there has been a material change in the amounts compared with the last annual financial statements. In respect of this amendment, the Group has continued to disclose segment assets and segment liabilities in note 3.

Amendments to HKFRS 7, Financial instruments: Disclosures – Disclosures – Offsetting financial assets and financial liabilities

The amendments introduce new disclosures in respect of offsetting financial assets and financial liabilities. Those new disclosures are required for all recognised financial instruments that are set off in accordance with HKAS 32, *Financial instruments: Presentation,* and those that are subject to an enforceable master netting arrangement or similar agreement that covers similar financial instruments and transactions, irrespective of whether the financial instruments are set off in accordance with HKAS 32.

The adoption of the amendments does not have an impact on the Group's interim financial report because the Group has not offset financial instruments, nor has it entered into master netting arrangement or similar agreement which is subject to the disclosures of HKFRS 7.

3 **Segment reporting**

The Group manages its businesses by divisions, which are organised by a mixture of both business lines and geography. In a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group has identified three reportable segments. No operating segments have been aggregated to form the following reportable segments.

3 Segment reporting *(Continued)*

(a) Information about profit or loss, assets and liabilities

Information regarding the Group's reportable segments as provided to the Group's most senior executive management for the purposes of resource allocation and assessment of segment performance for the period is set out below.

The measure used for reporting segment profit is "adjusted EBITDA" i.e. "adjusted earnings before interest, taxes, depreciation and amortisation", where "interest" is regarded as including investment income and "depreciation and amortisation" is regarded as including impairment losses on non-current assets. To arrive at adjusted EBITDA the Group's earnings are further adjusted for items not specifically attributed to individual segments, such as share of profits less losses of associates, directors' and auditors' remuneration and other head office or corporate administration costs.

4 **Seasonality of operations**

The Group's plush stuffed toys and ride-on toys divisions, on average experience higher sales in the second half year, compared to the first half year, due to the increased demand of its products during the holiday season. As such, the first half year reports lower revenues and segment results for these segments than the second half.

For the twelve months ended 30 June 2013, the plush stuffed toys and ride-on toys divisions reported reportable segment revenue of $1,244,926,000 and $45,552,000 respectively (twelve months ended 30 June 2012: $1,137,894,000 and $68,312,000 respectively), and reportable segment profit of $245,154,000 and loss of $25,481,000 respectively (twelve months ended 30 June 2012 (restated): $181,788,000 and loss of $19,100,000 respectively).

6 Claim settlement

In March 2012, a customer (the "Customer") initiated a claim in the Hong Kong High Court (the "Court") against the Company and two subsidiaries of the Company including one subsidiary in the PRC (the "PRC Subsidiary") and requested compensation in respect of products manufactured by the PRC Subsidiary and sold to the Customer mostly during the year ended 31 December 2010 (the "Claim").

6 Claim settlement *(Continued)*

The subsidiaries filed and served their defence and counterclaim on 30 January 2013, denying liability in respect of the Claim and counterclaiming against the Customer for US$78,000 (equivalent to $605,000), being the sum of various outstanding invoices and debit notes rendered to the Customer in 2010 and 2011, plus interest and costs.

On 20 February 2013, the Company applied to strike out the Claim against it (but not against the subsidiaries) on the basis that the Claim discloses no reasonable cause of action against the Company. The Customer agreed to discontinue its Claim against the Company and pay the Company's costs incurred in the action. On 9 April 2013, the Customer and the Company made a joint application to the Court for leave for the Customer to discontinue the Claim against the Company. The Court made an order in terms of the parties' application on striking out the Claim against the Company on 15 April 2013. The Company is now assessing the costs relating to striking out the Claim against the Company incurred in the action and will seek recovery of those costs from the Customer.

In late July 2013, the Customer and the subsidiaries entered into a commercial settlement, which was recorded in the form of a Tomlin Order filed with the Court on 29 July 2013. Upon performance of the Tomlin Order, the Claim will be fully and finally settled. Claim settlement of US$250,000 (equivalent to $1,939,000) was included in "administrative expenses" in the consolidated income statement for the period ended 30 June 2013.

In accordance with the Tomlin Order, the claim settlement is payable as follows:

Current tax – Outside Hong Kong	**12,490**	9,448
Deferred taxation	**1,491**	1,868
	15,810	12,499

The provision for Hong Kong Profits Tax for 2013 is calculated at 16.5% (2012: 16.5%) of the estimated assessable profits for the period. Taxation for subsidiaries outside Hong Kong is similarly calculated using the estimated annual effective rates of taxation that are expected to be applicable in the relevant countries.

8 Earnings per share

(a) Basic earnings per share

The calculation of basic earnings per share is based on the profit attributable to ordinary equity shareholders of the Company of $50,245,000 (six months ended 30 June 2012 (restated): $43,474,000) and the weighted average number of ordinary shares of 672,165,000 shares (six months ended 30 June 2012: 672,165,000 shares).

(b) Diluted earnings per share

The calculation of diluted earnings per share for the six months ended 30 June 2013 is based on the profit attributable to ordinary equity shareholders of the Company of $50,245,000 and the weighted average number of ordinary shares of 674,237,000 shares.

The diluted earnings per share was the same as the basic earnings per share for the six months ended 30 June 2012 as the potential ordinary shares in respect of outstanding share options were anti-dilutive.

(ii) Structured debt securities represent: (a) a debt investment placed with an investment bank in Korea, amounting to $6,767,000 with variable interest linked to USD/RMB fixing rate and maturity date of 15 March 2015; and (b) a debt investment placed with an investment bank in Korea, amounting to $6,716,000 with fixed interest rate at 6.25% per annum and redeemable by the debt issuer on or after 15 April 2024.

9 Other financial assets *(Continued)*

Notes: (Continued)

(iii) Available-for-sale debt security – unlisted represents an investment in bonds issued by an investment bank in Korea with a maturity date of 30 March 2039. Management has no intention to hold the investment to maturity.

(iv) Available-for-sale equity security – unlisted represents an investment in a Korean private company and is carried at cost.

(v) Equity-linked securities represent three structured funds placed with investment banks in Korea, amounting to $3,398,000, $3,385,000 and $3,204,000 with guaranteed principal and variable interest linked to the Korea Composite Stock Price Index 200 and maturity date of 3 September 2013, 3 September 2013 and 10 February 2014, respectively.

Equity-linked securities as at 31 December 2012 represented four structured funds placed with an investment bank in Korea, amounting to $3,682,000, $3,672,000, $3,676,000 and $3,644,000 with guaranteed principal and variable interest linked to the Korea Composite Stock Price Index 200 and maturity date of 5 March 2013, 5 March 2013, 3 September 2013 and 3 September 2013, respectively.

(vi) Structured debt security represents a debt investment placed with an investment bank in Korea with fixed interest rate at 7.00% per annum and redeemable by the debt issuer on or after 30 July 2013.

(vii) Structured debt securities and equity-linked securities are hybrid instruments that include non-derivative host contracts and embedded derivatives. Upon inception, the financial instruments are designated as fair value through profit or loss with changes in fair value recognised in the income statement.

(viii) None of the above other financial assets are past due or impaired.

10 Fixed assets

During the six months ended 30 June 2013, the Group acquired items of fixed assets with a cost of $17,610,000 (six months ended 30 June 2012: $27,501,000). Items of fixed assets with a net book value of $1,404,000 were disposed of during the six months ended 30 June 2013 (six months ended 30 June 2012: $383,000), resulting in a gain on disposal of $50,000 (six months ended 30 June 2012: $175,000).

11 Inventories

During the six months ended 30 June 2013, $5,045,000 (six months ended 30 June 2012: $2,183,000) has been recognised as a reversal of write-down of inventories. The reversal arose upon disposal of these inventories.

12 Trade and other receivables

As of the balance sheet date, the ageing analysis of trade debtors and bills receivable (which are included in trade and other receivables), based on the invoice date and net of allowance for doubtful debts, is as follows:

16 Fair value measurement of financial instruments *(Continued)*

(a) Financial assets and liabilities measured at fair value (Continued)

(i) Fair value hierarchy (Continued)

During the six months ended 30 June 2013, available-for-sale debt security – unlisted with a carrying amount of $6,396,000 was transferred from Level 1 to Level 2 because quoted price in the market for such debt security became no longer regularly available. There were no transfers from Level 2 to Level 1 (2012: no transfers in either direction). The Group's policy is to recognise transfers between levels of fair value hierarchy as at the balance sheet date in which they occur.

(ii) Valuation techniques and inputs used in Level 2 fair value measurements

The fair value of available-for-sale debt security, equity-linked securities and structured debt securities in Level 2 is determined using quoted prices from financial institutions.

(b) Fair values of financial assets and liabilities carried at other than fair value

The carrying amounts of the Group's financial instruments carried at cost or amortised cost are not materially different from their fair values as at 31 December 2012 and 30 June 2013.
